III. Call for Papers:

The 5th Academia Sinica Linguistics Forum focuses on "Computational and Instrumental Research in Linguistics." In line with recent technological advancements, the forum welcomes abstract submissions on linguistic research utilizing instrumental approaches (e.g., acoustic and articulatory phonetics, neurolinguistics) or applying tools and approaches in computational linguistics and natural language processing (e.g., corpus analysis, large language models). We particularly encourage research focusing on national languages or low-resource languages, as well as research on less-explored research methods and linguistic phenomena. Accepted abstracts will be presented in either oral or poster format.

IV. Notes:

- Please write the abstract in either English or Chinese. The abstract should be limited to one single-spaced page (A4 size), with Times New Roman or PMingLiU 12-pt font, and 1-inch (2.54 cm) margins on all sides.

- Please upload your anonymized PDF file at OpenReview.
 - Webpage: <https://openreview.net/group?id=SINICA.edu.tw/2025/ASL-F-5>
 - If you do not have an OpenReview account, we recommend using an .edu email address when creating a new account to expedite the process.
- Deadline: March 15, 2025
- Notification: April 5, 2025
- Please contact sftwang@gate.sinica.edu.tw for questions regarding abstract submission.
